	A00-10-028	The Utility Reform Network, for modification of Resolution E-3527.

Summary: On June 15, 2005, Brian Cherry, Director, Regulatory Relations, Pacific Gas & Electric Company (PG&E), met with Stephen St. Marie, advisor to Cmmr. Bohn, in San Francisco. Also present were Natalie Walsh and Steve Ross of the Office of Ratepayer Advocates, and Colin Cushnie, Director, Regulation, for Southern California Edison Company. Written material (attached to the notice) was used. Cherry discussed the proposed decisions in the Department of Water Resources (DWR) allocation proceeding. Cherry stated that the alternate by Cmmr. Peevey would not merely modify D04-12-014, but would vacate that decision. Cherry stated that San Diego Gas & Electric Company's (SDG&E) flawed rate impact claims do not justify imposing the alternate's inequitable allocation approach, and that the above market cost calculation are far from complex for a utility like SDG&E to perform. Cherry stated that the current allocation allocates a fair share of the burden of the DWR contracts to each of the investor-owned utilities' customers.

Summary: On June 13, 2005, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Julie Fitch, advisor to Cmmr. Peevey, in San Francisco. Also present were Dennis Keane, Manager, and David Rubin, Director, Service Analysis, PG&E. Written materials (attached to the notice) were used. Eisenman noted that PG&E supports the draft decision (DD) by ALJ Kenney in

I02-04-026, A04-07-032, with respect to the obligations of municipal departing load (MDL) for the regulatory asset and energy recovery bond charges. Eisenman also noted that PG&E supports the DD by ALJ Pulsifer in R02-01-011 with one significant exception: PG&E opposes the DD's grant of CMUA's requested 'clarification' regarding new MDL within the geographic region covered by PG&E's Bypass Report since this element of the DD is inconsistent with the record, is unlawful, and is bad public policy. Keane noted that the DD assumes that, because the Department of Water Resources (DWR) did not purchase for transferred MDL expressly quantified in PG&E's Bypass Report, DWR similarly did not purchase for unquantified (and potentially unlimited) new MDL in the same geographic area. Keane explained that since DWR purchased based upon a forecast that assumed all new load would be served by PG&E, there is no factual basis for granting any exemption for new MDL. Rubin stated that the arguments of Modesto and Merced Irrigation Districts, that transferred and new load eligible for DWR power charge exemptions should also be exempt from the DWR bond charge, were unsupported by any evidence in the record.
